GENERAL RULES FOR USING THIS BOOK

FORM

- Key signatures will be found at the top of page one, and at the top of page three for tunes longer than two pages. Any change of key will be noted not only where it occurs but also at the start of the next line. The key signature holds even if there is a change of clef, and is not restated. A change of key to C Major will appear as a clef followed by the naturals needed to cancel the previous key signature.
- The Coda sign is to be taken only when ending the tune unless otherwise stated. Some tunes have dual Codas (ϕ^1 and ϕ^2) to make it possible to fit a complex tune on two pages.
- All repeats are observed during a 'D.C. al Coda' or 'D.S. al Coda' except in the following cases:
 - when a Coda sign appears in a repeated section; the Coda is taken before repeating (unless marked 'on repeat').
 - when an instruction to the contrary appears (e.g. 'D.S. al 2nd ending al Coda').
- A Coda sign just within repeats is taken before repeating. A Coda sign just outside of repeats is taken after repeating.
- When no solo form is specified, the whole tune is used for solos (except any Coda).
- Till Cue On Cue signifies dual endings for a section that repeats indefinitely. The 'till cue' ending is played until cue, at which point the 'on cue' ending is played instead.
- A section marked '4x's' is played four times (repeated three times).
- A section marked 'ENDING' is played to end a tune; it directly follows the last bar of the head.

CHORDS

- Chords fall on the beat over which they are placed.
- Chords carry over to the next bar when no other chords or rests appear.
- Chords in parentheses are optional except in the following cases:
 - turn arounds
 - chords continued from the line before
 - verbal comment explaining their use (for solos, for bass but not piano, only at certain times, etc.)
- Optional chords in parentheses last as long as the chord they are written over or until the closing parenthesis is encountered, whichever is longer.
- Written-out piano or guitar voicings are meant to be played as written. Chord symbols appearing with such voicings often will not describe the complete voicing; they are meant to aid sight reading and are often used for solos.
- Multiple voices playing different rhythms are separated by having their stems lie in opposite directions whenever possible.

TERMS

- An 'altered' dominant chord is one in which neither the fifth nor the ninth appears unaltered. Thus it contains b5 &/or #5, and b9 &/or #9.
- 'Freely' signifies the absence of a steady tempo.
- During a 'break | ' piano, bass and drums all observe the same rests. The last beat played is notated as \downarrow or \times to the left of the word 'break'.
- A 'sample bass line', 'sample solo', or 'sample fill' is a transcribed line given as a point of reference.

TRANSPOSITIONS

- Bass lines are always written to be read by a bass player, i.e. one octave higher than they sound.
- Tenor sax and guitar lines are often written an octave higher than they sound and flute lines an octave lower to put them in a more readable range. There will be a verbal note to this effect in every case.
- All horn and harmony parts are written in concert key (not transposed).

CHORD SYMBOLS

The chord symbols used in this book follow (with some exceptions) the system outlined in "Standard Chord Symbol Notation" by Carl Brandt and Clinton Roemer. It is hoped you will find them clear, complete and unambiguous.

Below are two groups of chord spellings.

- 1) The full range of chords normally encountered, given with a C root, and
- 2) Some more unusual chords, all of which appear in tunes in this book (Note: some groups of notes below could be given different names, depending on context. See previous page for a definition of altered chords)

(No Chord)

The image displays a series of musical staves, each representing a different chord or group of chords. The chords are written in standard musical notation on a five-line staff, with the root note C implied. The chords are arranged in rows, with some rows containing multiple chords. The chords are as follows:

- Row 1: N.C., C bass, C, C⁶, C^{6/9}, C (add 9)
- Row 2: C^{MA7}, C^{MA7}(add 13), C^{MA9}, C^{MA13}, C⁷, C⁹, C¹³
- Row 3: C^{Mi}, C^{Mi}⁶, C^{Mi}^{6/9}, C^{Mi}(add 9), C^{Mi}⁷, C^{Mi}⁷(add 11), C^{Mi}⁷(add 13)

- Row 5: C^{dim.}, C^{o7}, C^{o7}(add MA7), C⁺, C^{SUS}, C⁷^{SUS}, C⁹^{SUS}, C¹³^{SUS}, C⁷^{SUS}4-3
- Row 6: C^{MA7}(b5), C^{MA7}(#5), C^{MA7}(#11), C^{MA9}(#11), C^{MA13}(#11), C⁷(b5), C⁹(b5)

The musical score is written for bass, piano/guitar, and voice. It begins with an instrumental introduction in E major, 4/4 time, with a tempo of 164. The bass line is in the lower register, while the piano/guitar accompaniment is in the upper register. The vocal line is written in a standard staff with lyrics underneath. Chords are indicated above the notes, and some are marked with 'D/E' or 'F#m/E' to indicate slash chords. A section marked 'A' is indicated by a box around the first measure of the vocal line. The lyrics are: '1. Second verse:
 You tell me lies, that should be obvious to me,
 But I'm so much in love, baby, till I don't want to see
 That things you do and say are designed to make me blue,
 It's a doggone shame my love for you makes all your lies seem true.
 If the truth makes love last longer,
 why do lies make my love stronger?
 Uh—Ain't that peculiar...

Third verse:
 I've cried so much, just like a child that's lost a toy,
 Maybe, baby, you think these tears I cry are tears of joy,
 A child can cry so much until you do everything they say,
 But unlike a child my tears don't help me to get my way.
 I know love can last through years,
 but how can love last through tears?
 Uh—Ain't that peculiar...

Life is like a school,
 And some folk never learn the rules.
 But here we are,
 Much wiser now than we were then,
 And it all goes 'round and 'round.

No way to turn back the time,
 Endlessly spinning around.
 With each brand new day
 We leave some youth behind
 And it all goes 'round and 'round.

Melody is freely interpreted.

$\text{♩} = 96$

The musical score is written for piano and soprano saxophone. It begins with an 'Intro' section. The piano part uses chords such as $GMI^7(\text{omit } 5)$, $F^{(\text{add } 9)}$, $G^bMA^7(\text{b}5)$, $GMI^7(\text{omit } 5)$, $F^{(\text{add } 9)}$, and F/D^b . The soprano saxophone part features a melodic line with triplets and slurs, starting with a $G^{13}(\text{sus})$ chord. The score is divided into sections A and B, with various chord voicings and articulations like slurs and triplets throughout.

Solo on form (AB).
After solos, D.S. al Coda

The Coda section consists of a single line of music. It starts with a $GMI^7(\text{omit } 5)$ chord, followed by $F^{(\text{add } 9)}$, $G^bMA^7(\text{b}5)$, $GMI^7(\text{omit } 5)$, $F^{(\text{add } 9)}$, and F/D^b . A fermata is placed over the final F/D^b chord, with the instruction '(On cue)'. The section ends with a repeat sign.

Play melody once, then solo indef.
On cue, play melody once & end.

Melodic rhythm is freely interpreted. Fermata is ignored for solos.
On recording, piano plays the head once ad lib. before the Intro.
Chords in parenthesis are used for solos.

Lyric:

Emily, Emily, Emily has the murmuring sound of May,
 All silver bells, coral shells, carousels,
 And the laughter of the children at play, say

Emily, Emily, Emily, and we fade to a marvelous view,
 Two lovers alone and out of sight, seeing images in the firelight,
 As my eyes visualize a family, they see dreamily, Emily, too.

The Gentle Rain

Lyric: Matt Dubey
Music: Luiz Bonfá

The musical score is written in G major with a key signature of one flat (F major) and a common time signature. It features a vocal line with triplets and a piano accompaniment line with various chords and triplets. The lyrics are: "We both are lost and a lone in the world, walk with me in the gentle rain. Don't be afraid, I've a hand for your hand, and I will be your love for a while. I feel your tears as they fall on my cheek, they are warm like the gentle rain. Come, little one, you have me in the world, And our love will be sweet, will be sad, like the gentle rain, like the gentle rain, like the gentle rain." The score is divided into sections by a boxed 'B' at the beginning of the fourth system.

 'Cause you mean that much to me.
 You could have told me yourself
 That you loved someone else.
 Instead, I heard it through the grapevine (etc.)

Second and Third verses

2. Each night as I sleep, Into my heart you creep.
 I wake up feelin' sorry I met you,
 Hopin' soon that I'll forget you.
 When I look in the mirror to comb my hair
 I see your face just a-smiling there.

Nowhere to run, Nowhere to hide from you, baby.
 Got nowhere to run to, baby, Nowhere to hide.
 I know you're no good for me,
 But you've become a part of me.

3. How can I fight a love that shouldn't be,
 When it's so deep, so deep,
 Deep inside of me?
 My love reaches so high I can't get over it.
 It's so wide I can't get around it, no.

Nowhere to run, Nowhere to hide from you, baby.
 Just can't get away from you, baby, No matter how I
 try.
 I know you're no good for me,
 But free of you I'll never be.

Lyric:

Lover, one lovely day
 Love came planning to stay.
 Green Dolphin Street supplied the setting,
 The setting for nights beyond forgetting.

And through these moments apart
 Memories live in my heart,
 When I recall the love I found on,
 I could kiss the ground on Green Dolphin Street.

2. When you feel lost and about to give up,
'Cause your best just ain't good enough,
And you feel the world has grown cold,
And you're drifting out all on your own,
And you need a hand to hold,
Darling, Reach out (come on girl, reach out for me),
Reach out (reach out for me).

I'll be there to love and comfort you,
And I'll be there to cherish and care for you.

3. I can tell the way you hang your head,
You're without love and now you're afraid,
And through your tears you look around,
But there's no peace of mind to be found (I know what you're thinkin'),
You're alone now, no love of your own, but
Darling, Reach out (come on girl, reach out for me),
Reach out (reach out for me—just look over your shoulder).

I'll be there to give you all the love you need,
And I'll be there, you can always depend on me.

2nd verse:
 Here I come again.
 I'm gonna make things hum again.
 Acting dumb again,
 Taking a chance on love.
 Here I stand again,
 about to beat the band again.
 Feeling grand again,
 Taking a chance on love.

I never dreamed in my slumbers
 and bets were taboo.
 But now I'm playing the numbers
 on a little dream for two.
 Wading in again,
 I'm leading with my chin again.
 I'm startin' out to win again,
 Taking a chance on love.

3rd verse:
 Here I slip again,
 About to take that tip again.
 Got my grip again,
 Taking a chance on love.
 Now I prove again
 That I can make life move again.
 In the groove again,
 Taking a chance on love.

I walk around with a horseshoe,
 In clover I lie.
 And brother rabbit, of course you
 better kiss your foot goodbye.
 On the ball again,
 I'm ridin' for a fall again.
 I'm gonna give my all again,
 Taking a chance on love.

 I'm too high, I'm too high, I hope I never come down.
 She's the girl in her life,
 But her world's a superficial paradise,
 She had a chance to make it big more than once or twice,
 But no dice, she wasn't very nice.

3. I'm too high, I'm too high, I can't ever touch the sky.
 I'm too high, I'm so high, I feel like I'm about to die.
 She's a girl of the past,
 I guess that I got to her at last,
 A-did you hear the news about the girl today?
 She passed away. What did her friends say?

Second verse.

It may seem to you that I'm acting confused when you're close to me,
If I tend to look dazed, I've read it someplace, I've got cause to be,
There's a name for it, there's a phrase that fits,
But whatever the reason, you do it for me.

APPENDIX II - SOURCES

A wide selection of published music, manuscripts, records and other sources was used in creating the charts in this book. Below is an alphabetical listing of tunes with the major sources used for each.

Sources on paper fall into four categories:

- 1) Published sheet music - usually a full piano/vocal arrangement, though only melody and chord symbols in some instances.
- 2) Published transcription - a literal transcription from a specific recorded version.
- 3) Publisher's lead sheet - an in-house document created by staff transcribers or an outside transcription service with or without the composer's input; it usually reflects a single recorded version.
- 4) Composer's lead sheet - an original lead sheet in the composer's own hand.

The recorded sources for each tune are listed in order of contribution - records listed first contributed more to the final chart than those records which follow. Often other recordings were listened to but are not listed if they added no new information to the charts. The various recordings of a tune are always our primary source for these charts.

A number of other sources used are not listed here. These include fake books, legal and illegal (never used as primary sources for chord progressions), composer's approval of and/or input for lead sheets we sent them, and suggestions from local musicians who proofread the book.
