FOREWORD

Collaboration is a delicate art; few egos are small enough to allow for a compatible, creative relationship. Howard Roberts and Jim Stewart - - working and thinking as closely as Rimsky and Korsakov - - have brought collaboration to a new sophistication. At the same time they have raised the stature of the guitar to its proper level of respect.

They accomplished this by means of a simple, direct technique that took full advantage of their 15-year relationship in and out of the studios: Howard and Jim discussed the format of the book, flipped on a tape recorder, then allowed stream of consciousness to outline the five major topics - - picking, comping, improvising, fingerboard technique and chord solo playing.

To illustrate each of those functions, Howard provided every note of music plus the accompanying fingering. All the slurs, all the accents - - all the nuances of notation - - reflect Howard's guitartistry. In its fullest measure, this is The Howard Roberts Guitar Book. What Jim Stewart has done involves more than just adding words to music. He analyzed Howard's technique and interpreted his thoughts about the instrument. All the subtleties of the text reflect Stewart's gift for understanding the man behind the music. This role of "artistic alter ego" is a familiar one to Jim: he produced similar results in The Wes Montgomery Jazz Guitar Method for Robbins.

To capture the essence of Howard Roberts is to re-create the virtual history of the guitar. Stylistically and aesthetically, Howard's knowledge and technique encompass the entire plectrum pantheon: from the early acoustic explorations of Eddie Lang; the unorthodox fingering of Django Reinhardt; the amplified genius of Charlie Christian; the comping steadiness of Freddie Green; the inventiveness of Jimmy Raney and Tal Farlow; to that linear-chordal giant of today, George Van Eps.

From 20 years of exacting studio assignments, plus the dues-paying apprenticeship that preceded, and the club and concert gigs that have continued, Howard Roberts has reckoned with every conceivable type of guitar and met every possible type of musical challenge. If he symbolizes all that is past in the evolution of the guitar, he is the logical spokesman for the explosive roles the guitar will assume in the future.

As Howard likes to say, "The guitar is the cutting edge. Various instruments have enjoyed their day as the vanguard of new sounds. Now it's the guitar, and others are following suit electronically." Little wonder Howard's musical examples "go beyond the page." Each is a compact, highly concentrated study. There are no wasted notes; no wasted words. The advanced student will soon realize that Howard Roberts has successfully conveyed what he has digested and coaxed it through the fingerboard. The beginner stands to benefit more from one example than from any ten exercises in a simple rote method.

There's a wealth of material condensed in these pages - - the entire plectrum spectrum - - compliments of the Roberts-Stewart "fret-ernity." Now it's up to you to take your pick.

INTRODUCTION TO THE FINGERBOARD AND THE FIVE DISTINCT FINGERING PATTERNS

The “five distinct fingering patterns” when laid end to end cover the entire fingerboard from the lowest to the highest points in any key.

A full command of scales and variety of intervals is a prerequisite to the command of each of the “five distinct fingering patterns”. You should reach a point of visually seeing what you hear and be able to relate to one or more of the five basic fingering patterns.

When all of the five basic fingering patterns are telescoped into one position, you can play with ease in five different keys. In other words, two octaves and a third of chromatic tones are playable in one of the basic fingering patterns without moving the hand. A finger per fret is the general rule. The first finger is available to stretch down a fret and the little finger is available to stretch up a fret. Harmony does result from scales, and so do chord fingerings result from the “five distinct fingering patterns”. The “five distinct fingering patterns” can be visually related to the five basic chord forms; i.e., Cf, Af, Gf, Ef, and Df.*

Two basic rules for connecting the “five distinct fingering patterns”:

- 1 - Slide the fingers on the half-steps.
- 2 - Stretch with the little finger in ascending lines.

*The five basic chord forms are derived from the open string six-note chords fingered in first position.

THE LEFT HAND AND THE FINGERBOARD

Position of the Thumb: Your knuckles should be almost parallel to the side of the neck. Fingers should be in an arched position until just the tips rest on the strings so that they work up and down in a hammer-like fashion, seating in between the frets. It is necessary to keep the fingers suspended over the fingerboard at all times. Do not let them stand up straight or curl under the fingerboard or wander in any fashion. The wrist must be kept straight at all times except when executing a very long stretch. This wrist posture should be comfortable and natural when used correctly. The attack should be a deliberate snap working to produce a good sound. The attack is the basic criterion for good sound and fluid technique.

POINTS TO REMEMBER

The leverage point - attack - the thumb should ride up and down the center of the back of the neck and you form the pressure between the thumb and finger executing a snap attack.

The reason why the wrist is held flat is so the tendons that operate the fingers can ride through grooves in the wrist and knuckles and fingers. If you bend the wrist you are putting a friction or a bind on the fingers, wrist and tendons.

FINGERBOARD - LEFT HAND PRESSURE

Exercise for development of equal pressure for fingers of the left hand: As each finger is placed on the designated string, the maximum of pressure is exerted throughout the exercise. At no time after a finger has sounded a note is the pressure decreased. The object of the exercise is to develop maximum pressure of each finger sounding the string at all times. Once a finger sounds the note it remains on the fingerboard and that pressure is retained. When moving to the adjacent string the fingers remain on the string that has just sounded. This exercise also develops independence of each finger of the left hand.

Note: EACH FINGER MAINTAINS MAXIMUM PRESSURE
AT ALL TIMES ON ALL SIX STRINGS.

$\text{♩} = 80$

⑥th string ⑤th string ④th string

③rd string ②nd string ①st string

SIMILE

TECHNICAL EXERCISE

For development of the first joint of each finger, bending and attack. Each note is to be held as long as possible, developing a legato technique. The first joint of each finger should snap to produce a sound on the adjacent string. This exercise should be played slowly and deliberately listening for sound. The purpose of the exercise is to develop the snap attack using the first joint of each finger when playing across adjacent strings. Hold each note as long as possible.

Legato (♩ = 100)

The musical score consists of ten staves of music in treble clef, 4/4 time. The tempo is marked as *Legato* with a quarter note equal to 100 (♩ = 100). The first staff begins with a *simile* marking. The exercise involves playing across adjacent strings, with each note held as long as possible. The notes are marked with circled numbers 1 through 5, indicating the finger used for each note. The sequence of notes across the staves is as follows:

- Staff 1: 1 (6), 0 (5), 1 (4), 1 (3), 0 (2), 1 (1), 1 (2), 2 (3), 1 (2), 2 (3), 2 (4), 1 (3), 2 (4), 2 (5), 3 (4)
- Staff 2: 2 (3), 3 (4), 3 (5), 2 (4), 3 (5), 3 (4), 4 (5), 3 (4), 4 (5), 4 (6), 4 (5), 3 (4), 4 (5), 4 (6), 1 (5)
- Staff 3: 0 (4), 1 (3), 1 (4), 1 (5), 0 (4), 1 (3), 1 (4), 1 (5), 1 (4), 2 (3), 2 (4), 2 (5), 1 (4), 2 (3), 2 (4), 3 (5)
- Staff 4: 2 (3), 3 (4), 3 (5), 2 (4), 3 (5), 3 (4), 4 (5), 3 (4), 4 (5), 4 (6), 4 (5), 3 (4), 4 (5), 4 (6), 1 (5)
- Staff 5: 0 (3), 1 (4), 1 (5), 1 (4), 0 (3), 1 (2), 1 (3), 2 (4), 1 (3), 2 (4), 2 (5), 1 (4), 2 (3), 2 (4), 3 (5)
- Staff 6: 2 (3), 3 (4), 3 (5), 2 (4), 3 (5), 3 (4), 4 (5), 3 (4), 4 (5), 4 (6), 3 (4), 4 (5), 4 (6), 1 (5)
- Staff 7: 0 (2), 1 (3), 1 (4), 1 (5), 0 (2), 1 (1), 1 (2), 2 (3), 1 (2), 2 (3), 3 (4), 2 (3), 1 (2), 2 (3), 3 (4)
- Staff 8: 2 (3), 3 (4), 3 (5), 2 (4), 3 (5), 3 (4), 4 (5), 3 (4), 4 (5), 4 (6), 3 (4), 4 (5), 4 (6), 1 (5)
- Staff 9: 4 (5), 1 (4), 0 (3), 1 (2), 4 (5), 1 (4), 0 (3), 2 (4), 1 (3), 2 (4), 2 (5), 2 (4), 3 (5), 3 (4), 3 (4), 4 (5), 4 (6), 1 (5)

ETUDE

(STUDY IN THE FIVE BASIC FINGERINGS AND THEIR CONNECTIONS)

Etude using the five basic fingerings and their connections, and their relationship to chord forms.

$\text{♩} = 144$

The etude is written in 4/4 time with a tempo of 144 beats per minute. It consists of 12 staves of music, each containing a sequence of notes with circled numbers 1-5 indicating fingerings. The chords are labeled as follows:

- Staff 1: C_{maj}^7 (I), D_{m}^7
- Staff 2: E_{m}^7 (III), G_{m}^7 (IV), C^7
- Staff 3: F_{maj}^7 (V), F_{m}^7 (I)
- Staff 4: E_{m}^7 (V), $A^7(b9)$ (IV), $A^7(b9)$ (III)
- Staff 5: D_{m}^7 (II), $G^7(b9)$ (II)
- Staff 6: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 7: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 8: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 9: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 10: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 11: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)
- Staff 12: C_{maj}^7 (I), E_{b}^7 (I), D_{m}^7 (I), $G^7(b9)$ (I)

Ritard...

THE GRACE NOTE

Symbol: 

The grace note takes its time value from the note it embellishes, whose accent it assumes.

The execution of the grace note differs according to whether the two notes are ascending or descending. When ascending, pick the grace note and, without moving the finger, stop it. Then let the proper finger fall on the following note without picking it. When descending, set both fingers simultaneously, pick the grace note, then lift the finger so that the following note will sound.

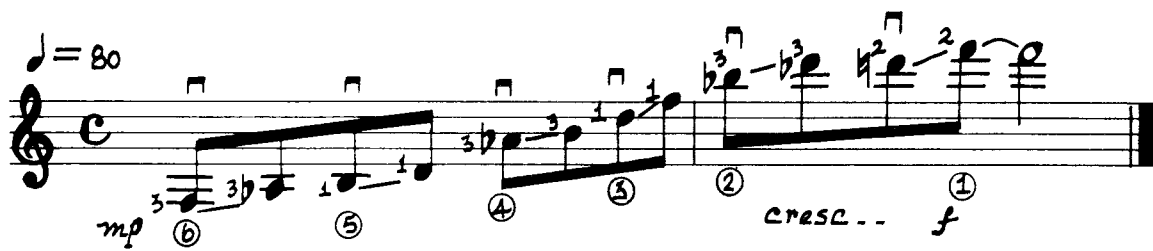

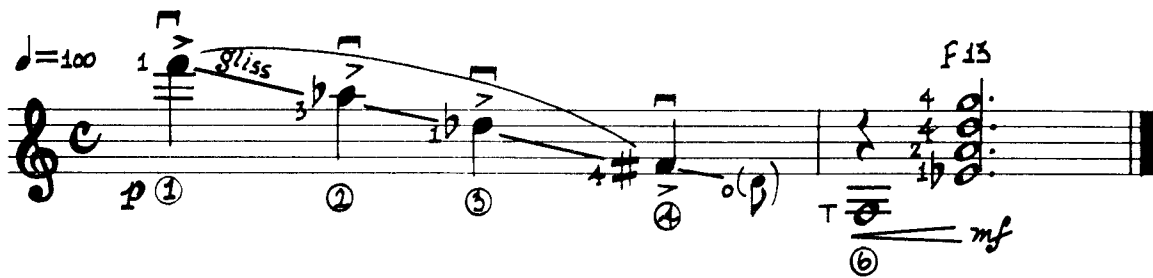

The musical exercises consist of four staves. The first two staves are in G major (one sharp) and 3/4 time, with a tempo of 92. They feature ascending and descending eighth-note patterns with grace notes, marked 'mp' and '6'. The last two staves are in D minor (two flats) and 3/4 time, featuring descending eighth-note patterns with grace notes, marked with circled numbers 1-5.

THE GLISS

Symbol: 

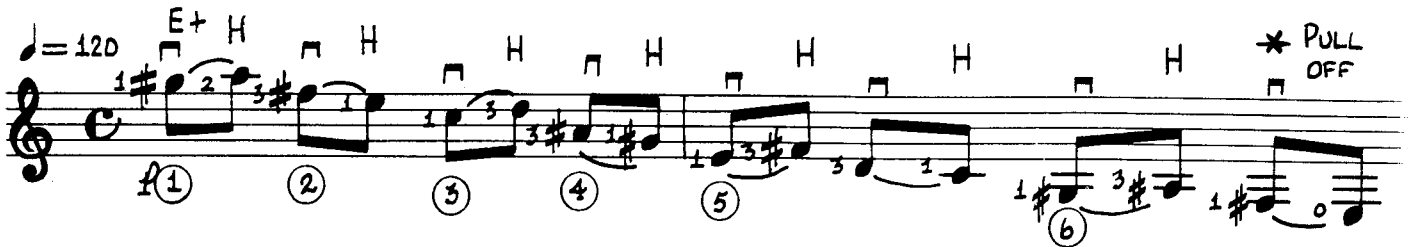

The finger employed stops the first note as it is picked, then slides across the frets to the other note, pressing the string sufficiently to make the intermediate semitones sound.

THE HAMMER ON (One String)

Symbol: 

In the Hammer On the left hand executes two or more notes, descending or ascending, while the right hand picks only the first note. Fingers are placed simultaneously on the notes to be sounded.

THE HAMMER ON (Adjacent Strings)

Here the left hand again executes two notes, descending or ascending, while the right hand picks only the first note, the difference being that the second note executed falls on a different string, above or below. To execute this class of Hammer On, pick the first note, then let the proper finger fall energetically on the next note to be sounded.

INTRODUCTION TO PICKING

Of all areas to be mastered, the technique of picking is the most personal and subtle, and is the identifying factor of primary importance in creating the individual's sound.

The picking motion is the end result of a series of coordinated muscular movements beginning with the shoulder and ending with the tip of the pick. This is a cantilever system, with muscles pulling fingers and the bone structure of the arm supporting the muscles. This system involves five separate areas: the shoulder, the elbow, the wrist, the thumb and index finger, and the tip of the pick. Movements that originate from the shoulder are large sweeping movements. The elbow motion is still a sweeping movement, but more controlled or confined. The wrist movement is a flicking type of motion. (Rhythm playing comes from the shoulder, elbow, and wrist.) Small circular scalpel movements are produced by the thumb and index finger (single note playing).

The ATTACK is achieved by the pressure point created by the thumb pushing the pick against the index finger. When the pick is held loosely it produces a different type of attack than with the pick held rigidly. Holding the pick in a rigid fashion gives you a rigid attack; holding the pick lightly gives you a looser attack. This does not change the actual process of pick contacting string. The clarity of sound is created by the precision with which the pick contacts the string; the quality of the attack by the way in which the pick is held. It should also be noted that in order to achieve a good attack, a conscious effort must be made to synchronize the action of the left hand with the picking motion.

In summary, think of picking in terms of the total picture, starting from the shoulder and ending at the tip of the pick, at the same time being aware of all the various elements involved. Also keep in mind the goal to be aimed for, which is an open mind attitude which allows the subconscious to do the picking action through the ear.

Through the evolution of the guitar to the present time, amplification has greatly changed the picture. The guitar is now capable of achieving many different tonal colors, and the player no longer can rely on a thorough knowledge of just one or two of the elements of picking; i.e., wrist only, elbow and wrist only, etc. He must develop all the elements of picking. An assortment of picks should be tried as well, different sizes, shapes and gauge, since the type of pick used is a governing factor in achieving the desired sound. It should be noted here that with an experienced player the choice of fingerings in the left hand will greatly influence the manner in which the strings will be picked.

EXERCISES

WARM-UP EXERCISE AND EXERCISE IN FINDING CENTER GROUND

The following exercise should be played covering the dynamic spectrum. The first time through very softly with tremolo. The second time through *fff* with tremolo. The third time through *mp*, fourth time through *mf*, which should be center ground or normal playing level for your instrument.

Development of the short stroke or scalpel movements of the index finger and the thumb:

On the downstrokes the thumb pushes towards the string being sounded; on the upstrokes the index finger pushes the right side of the pick back up against the thumb making a small circular movement or small scalpel movements.

Each exercise should be played ten times, with the wrist and muscles of the forearm and the index finger and thumb kept very relaxed. The natural dynamic level of this stroke is *mp*. The concentration should be at only the attack point at the tip of the pick.

As the muscles develop, the feeling of the pick in the hand will be a "velvety" feeling.

Note: As a must, the pick should always stay in the strings. This is true for each exercise in this chapter.

PICKING M V M V

EXERCISE FOR DEVELOPMENT OF CONSECUTIVE UP-PICK STROKES

The following exercise should be played first time through with all down-picks, second time through with all up-picks, with the object of developing the same dynamic level and attack produced by down-picking. The object of playing all down-picks first is to hear the difference in sound of your up-picks.

The musical score consists of two staves of music in treble clef, common time (C), with a tempo marking of quarter note = 12. The key signature has one flat (Bb). The first staff begins with a dynamic marking of *mf* and a circled 5. Above the first two notes are pick direction indicators: '1 x' and '2 x' for down-picks, and '1 V' and '2 V' for up-picks. The notes are: Bb2 (down), Bb3 (up), Bb4 (down), Bb5 (up), Bb6 (down), Bb7 (up), Bb8 (down), Bb9 (up), Bb10 (down), Bb11 (up), Bb12 (down), Bb13 (up), Bb14 (down), Bb15 (up), Bb16 (down), Bb17 (up), Bb18 (down), Bb19 (up). Fingerings are indicated by circled numbers 1-5 below the notes. The second staff continues the exercise with similar note values and fingerings, ending with a double bar line and a circled 5.

EXERCISES FOR DEVELOPMENT OF THE SHORT STROKE

The pick should be held very lightly between the index finger first joint and thumb first joint. The movement of the pick should be a small scalpel movement of circular motion. The front lower edge of the pick is used on the down strokes (the side of the pick that is not visible to the eye). The back upper edge of the pick is used on up strokes (the part of the pick that is visible to the eye). This circular movement should be exaggerated at first until the desired effect is experienced. Then the movement of the stroke should be scaled down to the desired small circular movement. It should be noted that this style of picking is strictly used for single note playing.

The following three exercises should be played ten times each.

mf ④ ① ③ ④ ① ③ ① ③ ① ③ ① ③

mf ④ ① ② ③ ① ② ③ ① ② ③ ① ② ③ ④

mf ④ ① ④ ① ① ② ③ ① ② ③ ①

BACK-PICKING

The following exercises demonstrate three ways of phrasing using the back-picking technique:

1. The use of even back-picking accomplishing a strict on-the-beat feeling.

*F*Maj7 *E*m7 *D*m7 *C*Maj7 *B*m7 *b*5 *A*m7

J=100

① ① ② ③ ① ① ② ③ SAME strings

2. A pseudo back-picking scheme displacing the rhythm feel. The hammer-on technique is used in conjunction with the back-picking.

J=100

mp

3. Each note is articulated.

J=100

mp

ADVANCED PICKING EXERCISES

1. Picking across adjacent strings sounding the same pitch.

$\text{♩} = 92$

2. Quasi-moog synthesizer musical sound using the adjacent string picking technique.

$\text{♩} = 100$

3. Exercise in development of up-pick with a diatonic line passing through a pedal soprano note.

$\text{♩} = 168$
una corda

ADVANCED PICKING EXERCISES

4. A harmonic elaboration of the up-pick pedal soprano technique.

The exercise consists of three staves of music in 4/4 time, starting with a treble clef and a common time signature. The first staff begins with a dynamic marking of *mp* and includes a *V* (up-pick) symbol above the first note. The second staff includes a *Simile* marking. Fingerings are indicated by circled numbers 1 through 5. The exercise concludes with a double bar line.

CADENZA

An example of using back-picking and hammering-on.

The cadenza exercise is written on a single staff with a treble clef and a key signature of one sharp (F#). It begins with a barre on the first fret and a chord marked *Em9*. The notation includes a sequence of notes with fingerings 1, 2, 3, 4, 3, 2, 1, 2, 3, 4, 3, 2, 1. Above the notes, there are *V* (up-pick) and *H* (hammering-on) symbols. A dynamic marking of *f* is present, followed by a *decrease.* line leading to a *pp* (pianissimo) marking. The exercise ends with a double bar line.

INTRODUCTION TO IMPROVISATION

Improvisation is the creation of a spontaneous musical expression -- a way of painting an emotional picture, sharing the individual's inner world with the listener. The psychological overtones of improvisation are the player's moods in a here and now situation, drawing material from experience in what is an evolutionary process. In this process the improviser is using four senses; thinking, feeling, intuition, and sensation. The equilibrium and interaction of these senses is what produces the total spontaneous musical expression.

Tonality is the language of improvisation. There are only so many possible combinations of notes available. It is like a language with combinations of words meaning different things. In essence, an improvisation is an assortment of musical ideas that are strung together to create the musical impression.

Some of the building blocks of improvisation are:

- 1 - Development of a computer mind that is constantly updating material.
- 2 - Understanding the structural nature of line and its relationship to the background.
- 3 - A good ear (The brain using memory and intellect to translate the image to sound).
- 4 - A good working knowledge of harmony.
- 5 - The understanding of the rhythmic pulse.
- 6 - The singing quality of your music.
- 7 - Over-technique for what you are going to play.

The elements listed above are beyond the page. They are elements which the individual may or may not apply himself to, according to the degree of his interest. And they are elements which the individual may pursue as far as he wants to -- their study can never be exhausted in the sense of being completed.

Whole Tone Scale Lick

Note: Picking and hammering-on of left hand.

Run in Fourths

$\text{♩} = 100$

The notation consists of two staves. The first staff contains four measures of music, each starting with a circled number (1, 2, 3, 4) indicating the starting fret. The notes are: 3rd fret (G), 2nd fret (F), 1st fret (E), and 4th fret (A). The second staff contains two measures starting with circled numbers 5 and 6, followed by a guitar chord diagram for G7#9 in the 4th fret. The notes in the second staff are: 3rd fret (G), 2nd fret (F), 1st fret (E), and 4th fret (A).

Note: Left hand fingering and the snap attack of the first joint of the third finger.

Run Built over a G7 Chord

$\text{♩} = 120$

The notation consists of two staves. The first staff contains four measures of music, each starting with a circled number (1, 2, 1, 2, 3, 1, 2, 3, 2, 3, 4, 3) indicating the starting fret. The notes are: 4th fret (G), 1st fret (E), 3rd fret (G), 3rd fret (G), 1st fret (E), 1st fret (E), 3rd fret (G), 1st fret (E), 3rd fret (G), 2nd fret (F), 1st fret (E), 2nd fret (F), 3rd fret (G), 3rd fret (G), 2nd fret (F), 2nd fret (F). The second staff contains four measures of music, each starting with a circled number (3, 4, 5, 4, 5, 4, 5, 6, 1, 5) indicating the starting fret. The notes are: 3rd fret (G), 4th fret (A), 5th fret (B), 4th fret (A), 5th fret (B), 4th fret (A), 5th fret (B), 6th fret (C), 1st fret (E), 5th fret (B).

Note: Picking and slurs.

___ LICK and Run over an F7 Chord

$\text{♩} = 100$

The notation consists of three staves. The first staff contains four measures of music, each starting with a circled number (4, 3, 4, 3, 2, 1, 2, 1) indicating the starting fret. The notes are: 4th fret (G), 3rd fret (F), 4th fret (G), 3rd fret (F), 2nd fret (E), 1st fret (D), 2nd fret (E), 1st fret (D). The second staff contains four measures of music, each starting with a circled number (4, 2, 3, 3, 4, 3, 4, 5) indicating the starting fret. The notes are: 4th fret (G), 2nd fret (D), 3rd fret (E), 3rd fret (E), 4th fret (F), 3rd fret (E), 4th fret (F), 5th fret (G). The third staff contains four measures of music, each starting with a circled number (5, 6, 2, 2, 1, 2) indicating the starting fret. The notes are: 5th fret (A), 6th fret (B), 2nd fret (D), 2nd fret (D), 1st fret (C), 2nd fret (D). A guitar chord diagram for Bb69 is shown at the end of the third staff.

Note: Picking, slurs and hammer-on of left hand.

Whole Tone Scale/Diminished Scale Run

♩ = 92

Note: Whole tone scale ascending/diminished scale descending. Strict attention must be given to every detail in notation to bring out the subtle character of this cadenza.

Minor Second Interval Lick

♩ = 80

Note: Using the interval of a minor second as the point of arrival. Accents in notation. The lower note continues to ring while the run continues giving the illusion of the legato sound of an electrified keyboard instrument.

Updating an Old Musical Lick

(This is a country lick in intervals of sixths passing through a cycle of fifths and played over the dominant seventh chord C7 #9.)

Note: Let each note ring as long as possible; left hand slides on half steps and string indications.

This musical example shows the use of sliding on half-steps.

This run has an "Eastern", "Semite" sound.

Note: The trills, hammer-on, and string indications.

TRADITIONAL OLD BLUES (Funky Blues)

This study is written in the old traditional blues idiom using the traditional blues ornamentation.

Notation Symbols for blues ornamentation (Left hand):

VIB Vibrato: Produced by a shaking motion of the left hand. The sound is a minute fluctuation of pitch in order to increase the emotional quality of the tone without resulting in a noticeable fluctuation of pitch.

Reverse Bend: A shake is started by bending the given note up a half-step, whole step, and sometimes a quarter tone from the given pitch. It is then struck, immediately letting it waver as rapidly as possible between the neighbor note chosen above the actual pitch of the note being bent.

∩ Bend: The given pitch is sounded, immediately bent up a half-step or whole step above the actual pitch, then allowed to return to the actual pitch without striking the note again.

~~~~ Shake: Given note is sounded, immediately bent up a half-step, whole step, sometimes quarter tone, then allowed to fluctuate very rapidly between actual pitch and the proximity note chosen from above. At no time is the note struck again.

↗ Up-Gliss: Sliding of the hand after the pitch is sounded upwards.

⏏ Staccato: Shorten the performance of the note so that it sounds only for a moment replacing the major part of its written value.

Note: It is recommended that you use a guitar that is set up with light gauge strings.

The musical score is written on three staves in a 4/4 time signature. The tempo is marked as quarter note = 56. The key signature has one flat (B-flat major or D minor). The score includes various blues ornaments and techniques:

- Staff 1:** Starts with a tempo marking of 56. The first measure has a $Bb7$ chord marking. The second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The tenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eleventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twelfth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fourteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventeenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The nineteenth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twentieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The twenty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirtieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The thirty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fortieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The forty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fiftieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The fifty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixtieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The sixty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The seventy-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eightieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-first measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-second measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-third measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-fourth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-fifth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-sixth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-seventh measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-eighth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The eighty-ninth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The ninetieth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note. The hundredth measure has a $Bb7$ chord marking and a $\frac{1}{2}$ note.

Handwritten musical notation for guitar, featuring three staves. The first staff starts with a $Bb7$ chord and includes a "SHAKE" instruction. The second staff features $F7$ and $Bb7$ chords. The third staff begins with an $F7$ chord. The notation includes various slurs, accents, and fingering numbers (1-5) for the left hand.

LIGHTENING - SKIMMING OVER NOTES

Jazz style of phrasing: This exercise is based on a standard jazz progression (standard tune which is characteristic of improvised music of the 1950's and the early 1960's). All fingering and string indications must be adhered to strictly. The purpose of this study shows the development of linear musical lines without the use of rhythmic motifs. This is experienced by playing one continuous line whereby the notes themselves solely create the musical drama. In this exercise bending of the first joint of fingers of the left hand and slurs are exploited. Picking must be at an *mp* level, as if skimming over the strings, causing the effect of lightening. This exercise should be practiced slowly at first in order that all points are understood thoroughly, and only then should the student play it at the designated metronome marking. This is an excellent example of building a musical idea or line with a continuous flow of notes, each note carrying equal weight.

Handwritten musical notation for guitar, featuring two staves. The first staff includes a tempo marking $d = 126$ and chords $Bb\ ma7$ and $Bb\ b9$. The second staff includes chords $Fm7$, $Bb13$, and $Bb+7b9$. The notation includes detailed fingering numbers (1-5) and slurs.

BEBOP JAZZ STYLE BLUES

This musical study uses the 12 bar blues formula. Unlike the traditional blues this structure depends solely on the development of a musical line from the designated chord progressions. The improvisation is subjugated to the vertical implications and its corresponding scale. The study is approached with the jazz style of phrasing discussed on page 28.

CONTEMPORARY BLUES

(Using superimposed tonality)

Bi-tonality is a procedure in which two or more keys are combined simultaneously. The scales and chords that form the different tonic centers are intervallically identical or contrasting. Although each tonal plane has its own organizational center, a single overall structure is usually felt. The use of this musical technique decreases the stability of the tonal center.

The following is a bar by bar analysis of the degeneration of the tonal center, the example is built over the basic C7 chord sound implying the key of C tonal center.

Bars 1 through 6 are basically an F_{maj}^7 chord and scale or G_{m}^7 chord and scale. At the ending of bar 6 parallel harmonies of chords built in fourths are used under the improvised line concluding at bar 8. Bars 9 and 10 enter the tonal area of E_b and F_{m}^7 scale tonality. Bars 11 through 14 enter the tonal center of G_b . Bars 15 and 16 enter the tonal center of D . Bar 17 enters the tonal center of G_b . Bar 18 enters the tonal center of D_b . Bars 19 and 20 F_{maj}^7 and G_{m}^7 scale tonality. Bar 21 through 23 use E_b, A_b, D, E_b, A_b chord and scale tonality, the study is concluded at Bar 24 using a B_b^7 chord and scale tonality as a transition back to the repeat of the study.

The musical score is written in 4/4 time with a tempo of 144. It consists of four systems of staves, each containing 6 bars. The first system (bars 1-6) starts with a C^9 sus 4 chord and a melody starting on G4. The second system (bars 7-12) continues the melody with various fingerings and includes a C^9 sus 4 chord. The third system (bars 13-18) features a C^9 sus 4 chord and a melody that moves through several tonal centers. The fourth system (bars 19-24) concludes with a B_b^7 chord and a melody that returns to the starting point.

EXPLORATIONS IN THE BI-TONALITY CONCEPT OF IMPROVISATIONS

This concept is a horizontal approach to improvising. The infinity symbol is used to indicate the endless or unlimited duration of time spent improvising over the given bi-tonality chords. In the following eight examples, the possibilities of this concept are shown using the superimposed chord and scale tonalities, with a melodic shape. It leaves open to the improviser, the area of rhythmic elaboration and development in addition to what could be called a point of departure to a point of arrival. This concept should be explored with musical wisdom and taste.

The image displays eight musical staves, each illustrating a different bi-tonality improvisation. Each staff begins with an infinity symbol (∞) and a set of superimposed chords and scales. The notes are written in treble clef and include various accidentals (sharps, flats, naturals) to represent the bi-tonality.

- Staff 1: $F \text{ MAJ}9$ / $C7 (\text{SUS}4)$
- Staff 2: $Gm9$ / $C7 (\text{SUS}4)$

INTRODUCTION TO COMPING

A musician's term for the act of providing accompaniment is "comping". We shall highlight the important factors in accomplishing a good accompaniment in this chapter.

The most important factor in comping is the preservation of the feeling and mood which has already been established by the existing melody. It should be noted, however, that in some cases a cross-relationship of feeling and/or mood may be desirable.

In approaching the problem of accompaniment, first determine what the job calls for. Will the guitar be used as a percussive instrument, or will it be providing harmony, or both? What is the idiom or "bag" the accompaniment should be in? Is its purpose to act as a mirror or reflection of the melody, or to provide a blanket of sound over which everything else is happening? Will the guitar be used to reinforce the rhythmic feel of a piece, or is it to carry an accompaniment wherein its own melody will stand out by itself?

Note: The discussion of the relationship between melody and background suggests the enormous topic of counterpoint, which is beyond the scope of this book.

Every tune must be treated as an individual problem, and it is essential that you exercise your own musical imagination at all times.

EXERCISE IN CREATING GHOST NOTES:

The following series of exercises is for developing the technique of playing ghost notes.

To create the desired "ghosting" effect, the chord is fingered and then the pressure is quickly released, achieving a deadened string effect. It is as though you were raking the pick over strings that have been dampened. At no time should the strings ring a true chord sound.

In the exercises, ghost notes are alternated with accented true chords (normal playing pressure L.H.). In notation the chords which are sounded as true chords are marked with an accent above; the chords which are ghosted are enclosed in parentheses. The patterns start off with simple one bar phrases and increase in complexity, with on-the-beat and off-the-beat accents. It is important that the right hand keep strumming with up and down strokes, the only change being in the pressure exerted by the fingers of the left hand.

Note: It is recommended that these exercises be practiced with the left hand only, counting and exerting or releasing pressure according to the notated accents and parentheses.

$\text{♩} = 120$

G7 #9 **F7 #9** *Simile*

Am9 *simile*

Three staves of guitar music in C major, 4/4 time, demonstrating various Am9 chord voicings and techniques. The first staff shows a complex voicing with a circled 3 and a circled 4, and a circled 1. The second and third staves show simpler voicings with circled 1s. All staves include accents and slurs.

CATALOG OF IDIOMATIC COMPING COLORS

Following is a musical example utilizing the ghost-note technique.

Musical example in F# major, 4/4 time, at 120 bpm. It features F#7 and G1 chords. The first staff has a circled 5 and a circled 6. The second staff has a circled 4 and a circled 6. It includes dynamics like 'f' and 'mf', and techniques like hammer-ons and ghost notes.

OLD BLUES LICK

This is a standard old blues comp figure. It uses a hammer-on and ghost note decoration to fully bring to life the character of this lick.

Musical example in G7, 4/4 time, at 120 bpm. It features a G7 chord. The first staff has a circled 1, 2, and 3. The second staff has a circled 1. It includes dynamics like 'mf' and techniques like hammer-ons and ghost notes.

BO-DIDDLEY LICK

The accents and ghost notes are very important to fully realizing the character of this lick.

♩ = 120

Handwritten notes: $E7\#9$, mf ⑤

The notation shows a guitar lick in 4/4 time with a tempo of 120. It features a melodic line with accents and ghost notes, and a bass line with a circled 5 indicating a fret position.

FUNKY BLUES INTRO

This self-contained musical phrase sets up a funky blues mood.

♩ = 176

Handwritten notes: mp ④, ⑤, ④

The notation shows a guitar intro in 4/4 time with a tempo of 176. It includes a melodic line with accents and a bass line with circled 4 and 5 indicating fret positions.

BOSSA NOVA

This exercise can be played in two fashions: finger style; pick and finger plucking*. The top part should be practiced alone until mastered; then the bottom part should be played in order to achieve the straight eighth note feel; and then both parts should be played together as a composite, thus obtaining a desirable effect - - that of the bossa nova rhythm.

*Note: Finger plucking is the use of the right hand fingers that are not being held by the pick.

♩ = 120 $C\ 6/9$

Handwritten notes: $A13$, $A7$, $Dm9$, $G13$, $G7$, $C\ 6/9$, mp ⑥

The notation shows a bossa nova exercise in 6/9 time with a tempo of 120. It consists of two staves of music. The top staff has a melodic line with chords $A13$, $A7$, and $Dm9$. The bottom staff has a bass line with chords $G13$, $G7$, and $C\ 6/9$. A circled 6 indicates a fret position.

SAMBA

It would be advisable to practice this exercise by first playing only the accented notes in order to get the feeling of the character of the figure. Then add the ghost notes.

In essence we are attempting to create the impression of a guitar as a complete Latin rhythm section.

Musical notation for Samba exercise. The piece is in 4/4 time with a tempo of 160. It starts with a treble clef and a key signature of one flat (Bb). The first measure is marked with a dynamic of *mf* and a circled 5. The chord is $A_m^7(sus4)$. The notation shows a sequence of chords and notes with accents (>) and ghost notes (indicated by a slash and a note). The second measure is marked with a circled 6 and the chord $G^6/9$. The piece ends with a double bar line.

JAZZ SAMBA

Accents and the slurred chords highlight the character of this jazz samba example.

Musical notation for Jazz Samba exercise. The piece is in 4/4 time with a tempo of 144. It starts with a treble clef and a key signature of one sharp (F#). The first measure is marked with a dynamic of *mf* and a circled 5. The chords are Bb^m7 and B^m7 . The notation shows a sequence of chords and notes with accents (^) and slurs. The second measure is marked with a circled 6 and the chord Bb^9 . The third measure is marked with a circled 6 and the chord $A^m7(sus4)$. The fourth measure is marked with a circled 6 and the chord $Ab^7(b5)$. The fifth measure is marked with a circled 6 and the chord B^m7 . The piece ends with a double bar line.

CLOSED CHORD VOICINGS

Compact closed voiced chords are usually played in faster rhythmic values.

Musical notation for Closed Chord Voicings exercise. The piece is in 4/4 time with a tempo of 120. It starts with a treble clef and a key signature of one flat (Bb). The first measure is marked with a dynamic of *f* and a circled 3. The notation shows a sequence of compact closed voiced chords. The second measure is marked with a circled 4. The third measure is marked with a circled 5. The fourth measure is marked with a circled 4. The fifth measure is marked with a circled 3. The sixth measure is marked with a circled 4. The seventh measure is marked with a circled 3. The eighth measure is marked with a circled 6 and the instruction "Strike with R.H. - 1st finger". The piece ends with a double bar line.

OPEN CHORD VOICINGS

Open spread chords are usually of long rhythmic value.

FULL STRING SECTION EFFECT WITH USE OF TREMOLO

This exercise is achieved by turning the pick on edge and striking the string in a tremolo fashion. These chords are spelled in big open voicings, characteristic of the string section orchestral device normally used in creating a soft ethereal sound.

GUITAR – HARP SOUND

To achieve the desired musical effect the strings should be picked over the top of the fingerboard at the 17th fret letting each note ring evenly in a legato fashion.

“ACOUSTIC RHYTHM COLOUR”

A type of open three note chord voicing common to certain styles of rhythm playing. This exercise is based on the twelve bar blues.

INTRODUCTION TO CHORD SOLO PLAYING

The guitar is truly a miniature orchestra, capable of covering the complete musical spectrum. It can provide total harmony; it can state rhythmic figures and perpetuate rhythmic feel; it can sustain like a keyboard instrument; or it can play percussively like a drummer. It is a forceful instrument in all idioms - - folk, rock, jazz, and traditional music of other countries. Chord solo playing is like writing for a band or orchestra, thinking in terms of a string section, brass section, saxophone section, rhythm section, and soloist. You should try to hear the miniature orchestra in your head, and make yourself increasingly sensitive to it. The concept of the guitar as a miniature orchestra will open up your mind to the unlimited range of orchestral impressions to be found on the instrument. This concept will broaden your playing so that you are not thinking totally from a guitaristic standpoint, and will enable you to reach a higher level of musical expression.

THE GUITAR AS A MINIATURE ORCHESTRAL ACCOMPANIMENT

Here is a musical example built on a standard pop tune progression demonstrating the subtle impression of the guitar as a miniature orchestral accompaniment. We will now analyze the following musical example: Throughout the first five bars the impression is that of a rhythm section playing with the keyboard instrument, using punctuation chords to set both the rhythmic and harmonic feel of the piece. The next impression begins at the end of Bar 6. The impression is a full studio string section playing out a blanket of harmony. At the end of Bar 11 the closed voiced chords are the impression of the lower brass element, trombones and French horns, being joined by the full orchestral ensemble four bars before the first cadence point at Bar 14. The next strain, Bar 17, begins with semi-closed voiced punctuation chords giving the impression of the brass team (trumpets and trombones) joined by the saxes at the last beat of Bar 20 through Bar 21. At this point you will notice $5\frac{1}{2}$ beats rest. This is an over exaggeration of leaving space to perpetuate a sense of drama. We begin the next impression with the entrance of the saxophones and trombones laying out a mat with semi-punctuated chords leading up to the final cadence and turnaround ending. This element is now joined by the strings at Bar 28 and 29. Bar 30 thins out to the impression of the lower brass element, that of trombones and French horns, for the first two beats joined by saxophones on the last beat of Bar 30. The second beat of Bar 31 begins with the full ensemble orchestra leading up to the repeat sign.

CHORD SOLO STUDY

This Howard Roberts composition is an exploratory study in the techniques utilized for chord solo playing. Take cognizance of the following voicings, single note runs used to fill a dead spot (where melody rests), independent chord movement over melody, pedal base tone, modulation and melodic sequence, chromatic chord structures, punctuation chords to highlight the melody, melody with strong counter melody implications, ostinato base, parallel harmonic structures, chord clusters, melody changed in octave, and repeated rhythmic figures.

- Note 1: Sustain each chordal tone to the maximum duration of time.
- 2: The string indications, fingering, expression markings, and time signature changes.

*The fatty third joint of the first finger sounds the note making one finger sound two notes that are not on the same fret. This is accomplished by lightly pulling down the fatty part of the third joint while still keeping the finger arched.

The musical score consists of five staves of music. The first staff begins with a melody in 4/4 time, marked *mf*. It features a series of chords and single-note runs. A circled '1' is placed above the first note of the first run. The second staff continues the piece, marked *Poco Mosso*, with a circled '5' below the first measure. The third staff includes a circled '5' below the first measure and a circled '3' below the second measure. It features a circled '3' above a run of notes and a circled '2' below a measure. The fourth staff has a circled '5' below the first measure and a circled '3' below the second measure. It includes a circled '3' above a run of notes and a circled '4' below a measure. The fifth staff starts with a circled '2' below the first measure and a circled '1' below the second measure. It includes a circled '2' below a measure and a circled '1' below a measure. The score concludes with a circled '3' below the final measure.

(D)

(E)

The image shows a page of musical notation for guitar, consisting of ten staves. The notation is written in treble clef and includes various time signatures: 2/4, 3/4, 4/4, 5/4, and 7/4. The music features complex rhythmic patterns, including triplets and sixteenth notes. Circled letters C, D, and E are placed above certain staves to indicate specific sections or exercises. The word "(HARM)" is written above the first two staves. Fingerings are indicated by numbers 1-5 in circles. The notation includes many accidentals (sharps, flats, naturals) and dynamic markings like accents (>) and slurs. The page ends with a double bar line and a repeat sign.

Musical staff 1: Treble clef, 4/4 time signature. Features a melodic line with accents and slurs, and a bass line with chords and fingerings. Circled numbers 2, 3, 4, 6, and 7 indicate specific notes or measures.

Musical staff 2: Treble clef, 4/4 time signature. Continuation of the melodic and bass lines from staff 1. Includes slurs and accents.

Musical staff 3: Treble clef, 4/4 time signature. Features a melodic line with accents and slurs, and a bass line with chords and fingerings. A circled number 6 is present.

Musical staff 4: Treble clef, 4/4 time signature. Features a melodic line with accents and slurs, and a bass line with chords and fingerings. A circled number 6 is present.

Musical staff 5: Treble clef, 4/4 time signature. Features a melodic line with accents and slurs, and a bass line with chords and fingerings. Includes a circled number 4 and a circled number 5. A circled 'F' is at the beginning.

Musical staff 6: Treble clef, 4/4 time signature. Features a melodic line with accents and slurs, and a bass line with chords and fingerings. Includes a circled number 4 and a circled number 5. A circled 'G' is at the beginning.
